

Inova Technika was established in Cracow (Poland) in 1998. Now we are well-known experts in designing, manufacturing, installation and servicing of supermarket and store equipment, including **CHECKOUT LINES**. Our products are made of high quality materials, such as natural wood, wood derivative, plastics and metals including precious metals. In our checkouts we use only best subassemblies of European producers (engines Interroll, conveyor belts - Chiorino, powder coatings - Promal Coatings).

Our experience and knowledge led us to the cooperation with such great **RETAILERS** and wholesalers like:

AUCHAN (POLAND, HUNGARY AND ROMANIA)

AUCHAN GROUPE is our main customer since 2002. In 2012 we have manufactured 500 checkouts only for Auchan Poland. Presently we employ best welders, assemblers, electricians and machinery operators, who are able to produce 200 checkouts per month.

Inova Technika still evaluates and gain new customers. We have **MODERN MACHINE PARK** and our own **DESIGN TEAM** so we are open for new challenging projects. We willingly can enter into **COOPERATION**, start new production or subcontracting. Eagerly we will prepare price offer based on your drawings or even suggestions of what you need. We offer you individually tailored project according to your request, **BEST PRICES AND QUALITY**, installation services (our team is specialized in quick and efficient night installations), users training, replacement parts and 18 months warranty. We also do unusual orders, prototype or small scale production.

The **CONSTRUCTION** of our checkouts usually include:

- sheet metal body coated with a powder paint in RAL semi matt colour
- cashier counter top and finishing made of stainless steel with orange skin texture
- polished stainless steel corners aluminum protected
- black conveyor belts, 2 mm thick
- photocell control system
- furniture finish counter top 18mm
- PVC bumper rail
- crumbs drawer located at the end of belt
- panel for checkout control
- panic button
- all necessary mountings holes and openings designated for computer, telephone, printer and reader security systems (excluding cash drawer) as well as for scanner scale
- shelf for cash drawer
- 2 mm feet for air circulation

To see more types of our checkouts please visit our website <http://inovatechnika.pl> If you are interested we can provide you with detailed information about our company and our products.
